-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-21 are rejected under 35 U.S.C. 102(b) as being anticipated by Goldhaber et al. (U.S. Patent Number: 5,794,210).

Claim 1. Goldhaber discloses a method for distributing advertisements to a user through a computer network, comprising the steps of:

- a. Storing advertiser registration information including advertisement information for goods and/or services provided by an advertiser according to a registration request by said advertiser (Col 14, lines 17-40; and Col 15, lines 17-30)
- b. Storing user registration information including search conditions for goods and/or services specified by said user according to a registration request by said user (Col 12, line 59 through Col 13, line 47)

- c. Extracting advertisement information matching said search conditions from among said stored advertisement information. (Col 14, lines 59-67)
- d. Distributing said extracted advertisement information to said user. (Col 14, lines 59-67)

Claim 2. Goldhaber discloses the method for distributing advertisements according to claim 1, wherein said computer network is the Internet; and said extracted advertisement information is distributed as an Internet home page screen to a terminal of said user connected to the Internet. (Col 7, lines 28-47; and Col 9, lines 33-67)

Claim 3. Goldhaber discloses the method for distributing advertisements according to claim 1, wherein said computer network is the Internet; and said extracted advertisement information is distributed as electronic mail to the terminal of said user connected to the Internet. (Col 6, lines 3-22; and Col 9, lines 33-67)

Claim 4. Goldhaber discloses the method for distributing advertisements according to claim 1, comprising the steps of:

- a. Storing questionnaires relating to goods and/or services corresponding to said distributed advertisement information and relating to advertisers providing these goods and/or services. (Col 16, lines 6-17)
- b. Distributing said questionnaires to said users (Col 16, lines 6-17)

- c. Receiving and storing responses to said questionnaires from said users. (Fig 12, and Col 16, lines 6-17)

Claim 5. Goldhaber discloses the method for distributing advertisements according to claim 4, wherein said questionnaires include pre-purchase questionnaires for said user to respond before said user purchases the goods and/or services corresponding to said distributed advertisement information, or post-purchase questionnaires for said user to respond after said user purchases the goods and/or services corresponding to said distributed advertisement information. (Col 16, lines 6-17; and Col 18, lines 47-59) (Goldhaber does not limit the time frame in which interaction with the advertisement disclosed in these sections occurs. Therefore, interactions such as rating the ads are interpreted by the Examiner to be capable of being performed both pre-purchase and post-purchase.)

Claim 6. Goldhaber discloses the method for distributing advertisements according to claim 5, wherein said pre-purchase questionnaires include questions for gathering impressions said user has of said goods and/or services, or of the advertisers providing these goods and/or services, before said user purchases the goods and/or services corresponding to said distributed advertisement information. (Col 16, lines 6-17; and Col 18, lines 47-59) (Goldhaber does not limit the time frame in which interaction with the advertisement disclosed in these sections occurs. Therefore,

interactions such as rating the ads are interpreted by the Examiner to be capable of being performed both pre-purchase and post-purchase.)

Claim 7. Goldhaber discloses the method for distributing advertisements according to claim 5, wherein said post-purchase questionnaires include questions for gathering feelings and opinions said user has of said goods and/or services, or of the advertisers providing these goods and/or services, after said user purchases the goods and/or services corresponding to said distributed advertisement information. (Col 16, lines 6-17; and Col 18, lines 47-59) (Goldhaber does not limit the time frame in which interaction with the advertisement disclosed in these sections occurs. Therefore, interactions such as rating the ads are interpreted by the Examiner to be capable of being performed both pre-purchase and post-purchase.)

Claim 8. Goldhaber discloses the method for distributing advertisements according to claim 4, wherein a prescribed reward amount is paid to users who respond to said questionnaires. (Col 16, lines 6-17)

Claim 9. Goldhaber discloses the method for distributing advertisements according to claim 8, comprising the steps of:

- a. Judging a level of contribution, of said questionnaire response, to said advertiser. (Col 17, lines 33-63)

- b. Determining a reward amount for each questionnaire response on the basis of that level of contribution. (Col 17, lines 33-63)

Claim 10. Goldhaber discloses the method for distributing advertisements according to claim 4, wherein results of compiling said questionnaire responses for a specific advertiser or the goods and services provided by the advertiser are distributed to said specific advertiser. (Fig 12; and Col 17, lines 33-63)

Claim 11. Goldhaber discloses the method for distributing advertisements according to claim 4, wherein advertisement information matching said search conditions is extracted on the basis of said questionnaire responses. (Col 17, line 64 – Col 18, line 33)

Claim 12. Goldhaber discloses the method for distributing advertisements according to claim 1, comprising the steps of:

- a. Receiving questions, regarding goods and/or services corresponding to said distributed advertisement information or regarding the specific advertiser providing these goods and/or services, from a specific user. (Col 15, lines 1-6; and Col 16, line 64 through Col 18, line 59)
- b. Storing said questions and then forwarding the questions to said specific advertiser. (Col 15, lines 1-6; and Col 16, line 64 through Col 18, line 59)

- c. Receiving a response to said questions from said specific advertiser. (Col 15, lines 1-6; and Col 16, line 64 through Col 18, line 59)
- d. Storing the response to said questions and then distributing the response to the questions to said specific user. (Col 15, lines 1-6; and Col 16, line 64 through Col 18, line 59)

Claim 13. Goldhaber discloses the method for distributing advertisements according to claim 12, comprising the steps of:

- a. Setting a response deadline for the response to said questions for said specific advertiser. (Col 4, lines 47-62) (An auction inherently includes a deadline for auction completion thereby urging bidders to respond.)
- b. Urging said specific advertiser to respond to said questions when a response to said questions is not received by said response deadline. (Col 4, lines 47-62) (An auction inherently includes a deadline for auction completion thereby urging bidders to respond.)

Claim 14. Goldhaber discloses an apparatus for distributing advertisements to users through a computer network, comprising:

- a. A memory unit for storing advertiser registration information, including advertisement information for goods and/or services provided by an advertiser, according to a registration request by the advertiser; and storing user registration information including search conditions for goods and/or

services specified by said user according to a registration request by said user. (Col 12, line 59 through Col 13, line 47; Col 14, lines 17-40; and Col 15, lines 17-30)

- b. A control unit for extracting advertisement information, matching said search conditions, from among said stored advertisement information; and distributing said extracted advertisement information to said user. (Col 14, lines 59-67)

Claim 15. Goldhaber discloses the apparatus for distributing advertisements according to claim 14, wherein said memory unit stores questionnaires relating to goods and/or services corresponding to said distributed advertisement information and relating to advertisers providing these goods and/or services; and said control unit distributes said questionnaires to said users, receives responses to said questionnaires from said users, and stores responses to the questionnaires in said memory unit. (Fig 12, and Col 16, lines 6-17)

Claim 16. Goldhaber discloses the apparatus for distributing advertisements according to claim 15, wherein said questionnaires include pre-purchase questionnaires for said user to respond before said user purchases the goods and/or services corresponding to said distributed advertisement information, or post-purchase questionnaires for said user to respond after said user purchases the goods and/or services corresponding to said distributed advertisement information.

(Col 16, lines 6-17)

Claim 17. Goldhaber discloses The apparatus for distributing advertisements according to claim 15, wherein said control unit judges a level of contribution, of said questionnaire response, to said advertiser, and determines a reward amount for each questionnaire response on the basis of that level of contribution, in the case where a prescribed reward amount is paid to users who respond to said questionnaires. (Col 17, lines 33-63)

Claim 18. Goldhaber discloses The apparatus for distributing advertisements according to claim 15, wherein said control unit compiles said questionnaire responses for a specific advertiser or the goods and/or services provided by the advertiser and distributes the compiled results to said specific advertiser. (Fig 12; and Col 17, lines 33-63)

Claim 19. Goldhaber discloses The apparatus for distributing advertisements according to claim 15, wherein said control unit extracts advertisement information, matching said search conditions on the basis of said questionnaire responses. (Col 17, line 64 through Col 18, line 33)

Claim 20. Goldhaber discloses The apparatus for distributing advertisements according to claim 14, wherein, upon receiving questions, from a specific user,

regarding goods and/or services corresponding to said distributed advertisement information or regarding the specific advertiser providing these goods and/or services, said control unit stores said questions in said memory unit and then forwards the questions to said specific advertiser; and upon receiving the response to said questions from said specific advertiser, said control unit stores the response to said questions in said memory unit and then distributes the response to the questions to said specific user. (Col 15, lines 1-6; and Col 17, line 64 through Col 18, line 59)

Claim 21. Goldhaber discloses The apparatus for distributing advertisements according to claim 20, wherein said control unit sets a response deadline for the response to said questions for said specific advertiser, and urges said specific advertiser to respond to said questions when a response to said questions is not received by said response deadline. (Col 4, lines 47-62)

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
 - a. Gerace (U.S. Patent Number: 5,991,735) discloses a method of targeted advertising incorporating the customer's responses to questionnaires.

Art Unit: 3622

- b. Herz (U.S. Patent Number: 6,029,195) discloses targeted advertisements including user ratings of both the advertisements and the products purchased from the advertisement.
